Fig.4

Fig.5

Slide out the electrical assembly (C) that needs to be replaced, from underneath the reflector.

Assemble now the new spare part:

Insert through the reflector the new electrical assembly (C).

Insert the ring nut (F) through the electrical cable and fasten it by utilizing the bent nose pliers.(Fig. 3 page 7)

Cut the electrical cable to the desired length. Strip the cable isolation.

Connect the electrical conductors to the terminal box (D), ensuring to lock the cable through the cable clamp (E).

Close the ceiling rose (A) by fastening the bolts (B). (1 page 6)

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off.
For the installation of the spare-part, it is necessary to consult a qualified electrician.
