 FU041630 Black

Arrangements Small Rose

Designed by Michael Anastassiades, 2018

Only canopy for Flos Arrangements. Please use the Arrangements configurator to build your own custom creation. Arrangements is a modular system of geometric light elements that can be combined in different ways, creating multiple compositions into individual chandeliers. Each unit simply attaches onto the previous one as if resting, balancing perfectly as a part of a glowing chain. Please note that the maximum power is 190 watts. You can choose any combination with the caveat that there can only be one or broken line and when you attach it, it must go at the bottom. This is an embedded canopy with two sizes. The first size is Max 70 watts and the second is 190 watts. Your purchase will automatically choose the appropriate canopy based on the watts necessary for your fixture. Please use the configurator to build your own custom creation

Are you a professional and your project needs consulting and support?
