

Belt Brown Casambi 2000mm

Designed by Ronan & Erwan Bouroullec, 2020

55.5W - 1694lm - 2700K - CRI> 95 - Beam° 60

Suspension lamp emitting direct and indirect light, each separately controlled. Profiles are covered in leather and suspended on leather straps with metal ceiling clasps. Concealed electrical connection via integrated microconnectors within the straps. Powered at 48V with dimming through Casambi controller, managed via the FLOS Control® app.

Designed by Ronan and Erwan Bouroullec, Belt combines the softness of leather with the precision of aluminium to create a flexible architectural presence. Inspired by the harness of a horse bridle, its sweeping straps conceal power while tracing sinuous lines in space. It reflects a fascination with organic gestures and structural clarity, uniting craftsmanship and technology in an interplay of material and light. Winner of the 2022 Compasso d'Oro ADI.
