Designed by Philippe Malouin, 2023

6W

LED bulb table lamp with adjustable head integrating bulb and cut-off providing direct lighting. Body made of a special pigmented polycarbonate deriving from a by-product of paper production rather than from petroleum. Adjustability through steel sphere treated with protective layer deposited in PVD. Useful length of the cable 2 mt. The cable can be adjusted and locked in place through a special slit in the base of the lamp. The product has been designed according to the ISCC standards and it is assembled with total absence of glued components so that it can be completely separated for future recyclability.
