F1310090 Crema d'Orcia Stone

## Camouflage 140 mm Crema d'Orcia Stone

Designed by Piero Lissoni, 2016

24V remote power supply to be ordered separately. Includes power cable of 100 mm. The power supply can be installed remotely (installation box not required) or housed at the back of the luminaire in the optional installation box.

Are you a professional and your project needs consulting and support?

### Main specifications

|                        |                      |
|------------------------|----------------------|
| EAN                    | 8054793585000        |
| Mounting               | Wall                 |
| Environments           | Outdoor wet location |
| Light source type      | LED                  |
| Light sources included | Yes                  |
| LED type               | Power LED            |
| Number of lamps        | 1                    |
| Power (W)              | 8                    |
| Lumen Output (lm)      | 474                  |

### Physical

|                     |                     |
|---------------------|---------------------|
| Colour              | Crema d'Orcia Stone |
| Trim                | No                  |
| Orientation         | Fixed               |
| Net weight (kg)     | 0.71                |
| Package height (mm) | 93                  |
| Package width (mm)  | 198                 |
| Package length (mm) | 198                 |
| IP internal         | 65                  |

Ecodesign and Energy Labelling

This product contains a light source of energy efficiency class F

Photometric

|                        |           |
|------------------------|-----------|
| Light distribution     | Symmetric |
| CCT (K)                | 2700      |
| CRI>                   | 80        |
| Beam angle C0-180 (°)  | 157       |
| Beam angle C90-270 (°) | 157       |

Electrical

|                    |   |
|--------------------|---|
| Insulation class   | III   |
| Frequency (Hz)     | 50/60   |
| Main voltage (Vac) | 24  |
| Power supply       | Remote excluded                               |
| Power supply type  | Non Dimmable, Dimmable 1-10V, Dimmable DALI 1 |
| Emergency          | No  |

Notes

We recommend using a connection system with a degree of protection greater than or equal to the degree of protection of the luminaire.

During the installation and the maintenance of the fixtures it is important to be careful and avoid damages on the coating.

For LED fixtures, there is evidence that most of the damages are connected to electrical effects related to the insulations, which cause destructive electrical discharges

These effects are frequently caused by:

- over voltage coming from the mains' network where fixture is connected.
- electrostatic discharge (ESD) coming from the environment.

The use of a protective device against the overvoltage on the electrical installation is warmly suggest this helps to reduce the intensity of some of these phenomenon and prevent irreversible damages. The selection of the type of device to be used must be adjust on the electrical plant.
