## Copycat

Designed by Michael Anastassiades, 2015

16W - 900lm - 2700K

They say that imitation is the sincerest form of flattery, and with the Copycat table lamp designer Michael Anastassiades shows us just how sweet it can be. This fixture is made of two spheres connecting with each other, one small and in a precious material, living in the shadow of the larger sphere. Copycat features an aluminum sphere made from solid metal and a including hand-blown glass opal diffuser. There is an LED light source with dimmer switch on the power cable. Inspiration behind the design: The connection between two beings is powerful, and designer Michael Anastassiades puts it on display in this brilliant design featuring a small and precious sphere aspiring to be something greater.
