IC T3 UL BRS

Designed by Michael Anastassiades, 2024

LED retrofit - 100W

Like the other pieces in his IC Light Series, the IC Lights table balances designer Michael Anastassiades' love of industrial simplicity with intricate symbolism. It provides diffused light through a mouth blown opaline sphere, which is held up by a brass-plated steel, black or chrome frame. There is a dimmer on the power cord. IC Lights table lamp comes in two models in brass or gold finish. Discover the complete IC Lights collection here. Inspiration behind the design: Poise is powerful: That's the message Michael Anastassiades offers with his IC Light Series. From the skillful balance of the sphere and baton that invokes thoughts of a dexterous juggler's act to the lamp's name-IC, a reference to the identity code used to evaluate immigrants entering the UK-the designer makes a commanding statement.
