Mini Glo-Ball Ceiling/Wall

Designed by Jasper Morrison, 2002

Part of the popular Glo-Ball Series, Mini Glo-Ball ceiling and wall sconce lamp was created by artist Jasper Morrison to invoke the radiant calm of a full moon. This unique wall or ceiling fixture provides diffused light. Its diffuser consists of an externally acid-etched, hand-blown, flashed opaline glass and a white, injection-molded PPS threaded ring nut. There is an injection-molded PPS white wall fitting. Please note, the base of the fixture will not cover a standard US junction box, a reduction ring is needed and included. Looking for a larger size? Shop the entire Glo-Ball Collection. Inspiration behind the design: Inspired by the soft and serene glow of a full moon in a clear sky, Jasper Morrison created the Glo Ball series to illuminate the otherworldly magic of the night.
