

My Circuit Profile

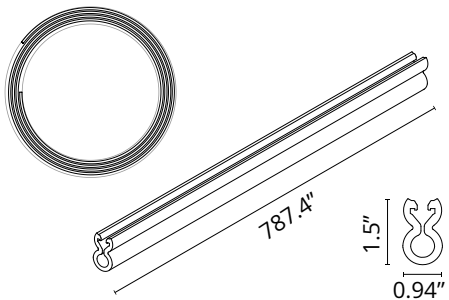

Designed by Michael Anastassiades, 2023

Flexible electromechanical profile available in various lengths, designed to be cut by the customer to the exact length required for each project. The profile is supplied in a spiral roll. It must be unrolled before installation. Select the required length based on the sum of the lengths of: the straight fixtures, the arcs of the curved fixtures and the track inserts in the power adapter fixtures (marked on its dimensional drawings).

Are you a professional and your project needs consulting and support?
