## Noctambule Floor 4 High Cylinder Big Base

Designed by Konstantin Grcic, 2019

45W - 1378lm - 2700K

Noctambule LED dimmable floor lamp short cylinders with small base is a flamboyant, yet functional modern floor lamp lighting fixture crafted by the world-class designer Konstantin Grcic for FLOS. An innovative lamp that is practical and exquisite in equal measure, the product is available in an array of interesting designs. One of the highlighting aspects of this fixture is that it is very dynamic in nature. The lighting system has a transparent hand-blown glass cylinder as its foundation, which is surrounded on top and at the bottom by LED technology. Users can configure this as a pendant lamp or a standing lamp by using its additional components. Putting together these units can help form columns of light at different heights that illuminate at the intersecting points between these modules. Inspiration behind the design: Inspired by night owls, Noctambule by Konstantin Grcic features a transparent body that almost blends into a room when unlit, but makes its presence known when it illuminates at night. Noctambule means night owl in French.
