## Superarchimoon Floor Lamp

Designed by Philippe Starck, 2000

Halogen - 250W

A brilliant play on perspective, Superarchimoon feels oversized and magnificent, providing direct and diffused light via a pleated cloth external diffuser and acid-etched, hand-blown glass internal diffuser. The diffuser support is sandcast aluminum, and the gray-painted assembly is composed of tubular aluminum arms and tie rods, a stainless steel spring, and die-cast aluminum joints. The sand-cast aluminum base features six lead counterweights and a painted gray spun-aluminum base cover. The polarized power cord is covered with silver fabric, and it features a 0%-100% dimmer. PLEASE NOTE: Superarchimoon requires a longer-than-usual delivery time. Please contact customer service for details before ordering.
