## Taccia

Designed by Achille and Pier Giacomo Castiglioni, 1962

28W - 2700K

A FLOS classic. The Castiglioni brothers often created designs that challenged our perspective, and the Taccia, which gives the illusion of an upside-down hanging lamp, is an inspired example of that. Designed by the famed duo in 1962, the iconic Taccia has a concave spun aluminum reflector with a matte white finish. Its light can be manually adjusted by positioning the blown glass diffuser as necessary. This designer table lamp's base is made of extruded aluminum and is available in an anodized matte black or natural sandblasted finish. Taccia LED Table Lamp dimmable with glass diffuser emits reflected light. This contemporary adjustable table lamp is available in black/anodized aluminum and has two options for its light source: HSGSR or a remote phosphor LED Inspiration behind the design: Their industrial backgrounds are evident in this design, a shining example of the way Achille and Pier Giacomo Castiglioni applied a minimalist approach to refurbishing everyday objects.
