

Taccia (PMMA)

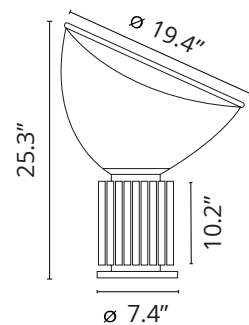

Designed by Achille and Pier Giacomo Castiglioni, 1962

28W - 2700K

The Castiglioni brothers often created designs that challenged our perspective, and the Taccia, which gives the illusion of an upside-down hanging lamp, is an inspired example of that. Designed by the famed duo in 1962, the Taccia has a concave spun-aluminum reflector with a matte white finish. Its light can be adjusted by positioning the Methacrylate as necessary. Its base is made of extruded aluminum and is available in an anodized matte black or natural sandblasted finish. The Taccia emits reflected light. It is available in black/anodized aluminum and has two options for its light source: - Remote Phosphor LED
