Three Phase Track Recessed 8ft

Length: 8 - Wall recessed, Ceiling recessed

To be mounted with the surface track inside, not included, needs to be ordered separatedly. GLOBAL TRACK offers benefits for advanced installations: the main connectors are feedable and the feeding cable can be hidden under the elegant suspension accessories. GLOBAL TRACK lighting tracks are designed for easy surface mounting on ceilings and walls, or recessed mounting in suspended ceilings. Lighting tracks can be suspended at any desired height. Other advantages of the three-circuit system are its high loading capacity and the possibility of forming independent fixture groups in all three circuits. This permits illumination of the most demanding environments. To be fixed with specific screw plugs that come with the track. All accessories need to be order separately.

How to order sample

SURFACE TRACK	60.310X.XX (Part number / Finish)	x QTY 1
+		
RECESSED HOUSING	60.311X.XX (Part number / Finish)	x QTY 1

In our constantly evolving world and business, technical upgrades happen every day. This means all product specifications and data are subject to change without warning in order t improve reliability, function, performance or otherwise. We make every effort to ensure the accuracy of our product images, however due to different lighting and screens used for viewing, the colours may vary. Images are indicative of the quality and style of the product but may not represent the precise details of the product you receive. This is because we are constantly working to make improvements. For aesthetic reasons, cables and/or electrical elements are often not shown. Refer to technical data sheets for all technical data. Images and colours are not part of any contract or warranty in any way.
