FU158309 White

Clessidra 20°+20°

Designed by Antonio Citterio, 2011

Inspired by the shape of an hourglass, the Clessidra indoor wall and ceiling lamp from Antonio Citterio emits direct and indirect light. This decorative lamp's body (white-painted or chrome-plated) is die-cast aluminum. The diffuser is PMMA, and there is an aluminum wall attachment with a cover in PA66. A white back plate is included to cover a junction box. Non-replaceable, high-efficiency lenses have been specially designed for this piece. A wide range (100-240V) power pack is integrated in the body. Level IP55. Non-dimmable. Inspiration behind the design: Italian for "hourglass", Antonio Citterio's Clessidra gives a modern finish to a classic shape. Check out the Clessidra Outdoor wall and ceiling version.
