Glo-Ball Table 1

Designed by Jasper Morrison, 1998

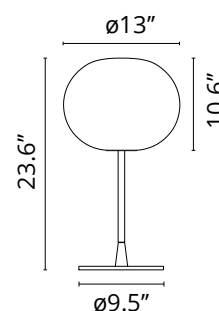

Halogen - 100W

Part of the popular Glo-Ball Series, the Glo-Ball table was created in 1998 by English designer Jasper Morrison to invoke the radiant calm of a full moon. This unique table lamp has a white acid-etched blown glass diffuser and a thick steel base. The machined stem and die-cast diffuser support have a silver finish. The polarized power cord comes with a 0-100% dimmer. Available in a matte silver or matte black finish. Inspiration behind the design: Inspired by the soft and serene glow of a full moon in a clear sky, Jasper Morrison created the Glo-Ball series to illuminate the otherworldly magic of the night.
