## IC Lights C/W1

Designed by Michael Anastassiades, 2014

Halogen - 75W

Radiant light, delicate balance: Like the other pieces in his IC Light Series, the IC C/W ceiling and wall lamp showcases designer Michael Anastassiades' love of industrial simplicity as well as his profound technical skill. The sleek, modern ceiling/wall lamp has a blown glass opal glass design that provides diffused lighting-as well as a sense of serene calm-to any hallway, living room, or bedroom. The frame comes in brass or chrome finish steel. IC Lights C/W can be mounted on any wall or mounted on the ceiling. IC Lights C/W comes in two models: IC Lights C/W 1: height 8.5" IC Lights C/W 2: height 12.4" See the entire IC Lights series here. Inspiration behind the design: Poise is powerful: That's the message Michael Anastassiades offers with his IC Light Series. From the skillful balance of the sphere and baton that invokes thoughts of a dexterous juggler's act to the lamp's name-IC, a reference to the identity code used to evaluate immigrants entering the UK-the designer makes a commanding statement.
