

IC Lights S1

Designed by Michael Anastassiades, 2014

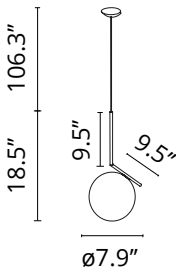

Halogen - 75W

Like the other pieces in the IC Light Series, the IC Lights S balances designer Michael Anastassiades' love of industrial simplicity with intricate symbolism. Providing diffused light through an opal blown glass diffuser, this pendant light is framed in brass-finished steel. Inspiration behind the design: Poise is powerful: That's the message Michael Anastassiades offers with his IC Light Series. From the skillful balance of the sphere and baton that invokes thoughts of a dexterous juggler's act to the lamp's name-IC, a reference to the identity code used to evaluate immigrants entering the UK-the designer makes a commanding statement.
