

Mini Glo-Ball Table

Designed by Jasper Morrison, 2003

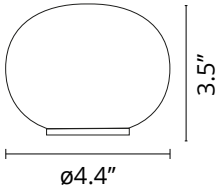

Halogen - 25W

The smallest member of the Glo-Ball family designed by artist Jasper Morrison, this unique table lamp features a flashed opal glass globe diffuser that has been externally acid etched and hand blown. It has an injection-molded (UL-94 V0) white PBT (polybutylenterephthalate) threaded ring nut. The thread base is injection-molded (UL-94 V0) white PBT. There is an on/off switch on cord. Inspiration behind the design: Inspired by the soft and serene glow of a full moon in a clear sky, Jasper Morrison created the Glo Ball series to illuminate the otherworldly magic of the night.
