OK

Designed by Konstantin Grcic, 2014

18W - 1551lm - 2700K

A pendant light that feels as at home in an industrial space as it would in museum exhibit: The OK Light by German Designer Konstantin Grcic plays with expectations to provide functional light that is surprising and easily directed. It features an ultra-flat LED surface with edge-lighting technology that can be directed over 360 degrees. The electronic components are housed in a small rectangular box that slides vertically over the metal wire of the lamp, which is balanced by a cone-shaped counterweight. The OK Light features a soft-touch switch.
