

Outgraze 50 L 1200 mm Dimmable DALI White

Designed by FLOS Outdoor, 2019

Integrated 120/240V power supply. Installation brackets, to be ordered separately.
Extra clear transparent glass, excluding the DIFFUSE version with sandblasted glass.
SMART dimmable DALI version available upon request (power 14W - flux -50% lm).
1-10V dimmable version upon request.

Are you a professional and your project needs consulting and support?

Main specifications

EAN	8054793347127
Mounting	Wall
Environments	Outdoor wet location
Light source type	LED
Light sources included	Yes
LED type	Power LED
Number of lamps	1
Power (W)	27
Lumen Output (lm)	2481

Physical

Colour	White
Trim	No
Orientation	Adjustable
Transversal tilting (°)	180
Length (mm)	1200
Net weight (kg)	3.28
Package height (mm)	130
Package width (mm)	1270
Package length (mm)	120
Package volume (m3)	0.02
IP internal	66

Ecodesign and Energy Labelling

Replaceable (LED only) light source by a professional

Replaceable control gear by a professional

Schematic light drawing

Photometric

Light distribution	Asymmetric
CCT (K)	2200
CRI>	80
Beam angle C0-180 (°)	13
Beam angle C90-270 (°)	53
Extreme cut off	No

Electrical

Insulation class	I
Frequency (Hz)	50/60
Main voltage (Vac)	120-240
Power supply	Integrated
Dimmable	Yes
Dimming interface	Dimmer Integrated
Emergency	No

Notes

We recommend using a connection system with a degree of protection greater than or equal to the degree of protection of the luminaire.

During the installation and the maintenance of the fixtures it is important to be careful and avoid damages on the paint coating.

Damages on the coating exposed to outdoor conditions or water, could cause corrosion.

Chemical substances affect the anticorrosion covering protection.

For LED fixtures, there is evidence that most of the damages are connected to electrical effects related to the insulations, which cause destructive electrical discharges

These effects are frequently caused by:

- over voltage coming from the mains' network where fixture is connected.
- electrostatic discharge (ESD) coming from the environment.

The use of a protective device against the overvoltage on the electrical installation is warmly suggest this helps to reduce the intensity of some of these phenomenon and prevent irreversible damages. The selection of the type of device to be used must be adjust on the electrical plant.

Accessories & Power Supply

REQUIRED
Accessory

F1204001
One pair of long brackets L 200 mm. White

REQUIRED
Accessory

F1203001
One pair of short brackets L 80 mm. White

REQUIRED
Accessory

F990C030000
4 way junction box 5 poles IP68 (6-14 mm cables)

REQUIRED
Accessory

F021Z040000
Plug&play connector 5 poles

REQUIRED
Accessory

F021Z060000
5-pole plug&play connector + 5-pole cable, 5000 mm length.
