

## Ray Floor 2

Designed by Rodolfo Dordoni, 2006

Halogen - 200W

Designed by Rodolfo Dordoni in 2006, the Ray F floor lamp updates a classic shape to give it a decidedly contemporary edge. The steel tube structure of this modern floor lamp is welded, brushed, and chrome-plated, and its diffuser support disk is die-cast, polished, and chrome-plated with Zamak alloy. The lamp has a resistive dimmer wired on the cord, offering a 0-100% lighting adjustment. The power cord is a black PVC/PVC (flat) sheath. Inspiration behind the Design: Offering a fresh perspective on an iconic shape, Rudolfo Dordoni designed his modern drum diffuser to resemble a lighthouse. "The stand that supports the light source is an elementary structure," he says. "It is part lighthouse, part power pylon." Note: This lamp ships with an halogen bulb and it is compatible with LED bulbs. The Ray F is available in two models with diffusers available in black or white aluminum, or grey glass. It emits a gorgeous, diffused light. With the black and white finish, diffusers are lathe-shaped aluminum and painted white on the inside. The grey glass diffuser is hand-blown, overlaid glass with a glossy external finish. Ray F1: 50.39" H x 14.17" | Shade:8.66"H Ray F2 :67.59" H x 16.92" | Shade: 10.62" H
