

FLOS

FU591109 Glossy White

Ray Table

Designed by Rodolfo Dordoni, 2007

Halogen - 100W

Designed by Rodolfo Dordoni in 2006, the Ray T floor lamp updates a classic shape to give it a decidedly contemporary edge. The steel tube structure of this modern design is welded, brushed, and chrome-plated, and its diffuser support disk is die-cast, polished, and chrome-plated with Zamak alloy. Its lathe-shaped aluminum diffusers, painted white on the inside, are shiny white or black on the outside. Or, choose a grey colored, blown and overlaid glass diffuser with a glossy external finish. The lamp has a resistive dimmer wired on the cord, offering a 0-100% lighting adjustment. The power cord is a black PVC/PVC (flat) sheath.
