

Spun Light Table 2

Designed by Sebastian Wrong, 2003

Halogen - 100W

Designed by Sebastian Wrong in 2003, the Spun Light table lamp reflects the best of modern manufacturing technology combined with elegance, craftsmanship, and dynamic fluid aesthetics. Its main body has a spun metal frame and diffuser. The table lamp's diffuser support arms and lamp-holder support are die-cast aluminum, painted in different colors. Diffuser supports are white, injection-molded PC. The dimmer has a 0-100% luminosity adjustment on the polarized cord. Emitting a gorgeous diffused light, the Spun Light table lamp is part of the Spun Light family. Inspiration behind the design: Known for his ability to balance elements of function, aesthetics, and refinement, Sebastian Wrong was inspired by fluid dynamics and their visual capabilities when he created this elegant table lamp.

Main specifications

EAN	8059607029879
Mounting	Table
Environments	Indoor dry location
Light Source Type	Bulb
Light sources included	No
Lamp category	Halogen
Lamp type	T Shielded
Lamp holders	E26
Number of lamps	1
Power (W)	100

Physical

Color	White
Length (in)	17.72
Cord color	Black
Cord length (in)	66.929
Net weight (lb)	12.35
Package height (in)	19.88
Package width (in)	30.32
Package length (in)	19.88
Package volume (in)	11983.22
IP internal	20
