Tab Table
Designed by Edward Barber and Jay Osgerby, 2011

9W - 347lm - 2700K - CRI> 80

A brand new edition of the Tab family, now with new capabilities in new colors. This new edition of Tab table lamp has an adjustable head with a 90-degree rotation capability emitting direct light. Features a dimmer switch on cord. Available in two new finishes matte blue and matte dark green, as well as black.Part of the Tab family created by the design duo of E. Barber and J. Osgerby in 2011, the Tab Table lamp is a tribute to the spirit of innovation. Lamp body painted with pressofused aluminum. Its multi-LED diffuser is specially designed PMMA (Polymethyl methacrylate), created to avoid multi-shadow effect and dazzle. Inspiration behind the design: E. Barber and J. Ogersby keep one goal in mind when they begin a creation: Challenge everything. When we are commissioned to design a product, we seek to re-evaluate the archetype, to challenge precedents. We always look at different ways in which products can be manufactured, not necessarily by using new materials or radical re-thinking, but maybe by using existing techniques in a more original or intelligent way.
